### DETAILED ACTION

1. Claims 1-7, 16, 17, 54, and 66 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims introduce new matter into the disclosure. The added material which is not supported by the original disclosure is as follows:

a. the phrase "the temperature...adhesive" (cl 1, lns 8-9) lacks support in the instant specification.

2. Claims 8, 9, 11-14, 18-33, 35-40, and 55-56 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims introduce new matter into the disclosure. The added material which is not supported by the original disclosure is as follows:

a. the phrase "a polymeric material in a portion of the molded article" (cl 8 and cl 22) lacks support in the instant specification. There is no mention of using a composite material in the instant specification.

3. Claims 8,9,11-14,18-33,35-40, 55-65, and 67-69 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "a molded article" (cl 8, ln 9; cl 22, ln 7; cl 57, ln 7) is confusing b/c it is unclear whether or not it is related to the molded article in the preamble.

Clarification and/or correction is required.
